CS1010 Programming Methodology
AY23/24, Y1S1
Notes

Sim Ray En Ryan

December 3, 2025

Contents

1 Programming **5**

2 Computational Problems **5**

3 Functions **5**

4 Types **5**

5 First C Program **5**

6 CS1010 I/O **5**

7 Arithmetic Operations **5**

8 Conditional Statements **5**

9 Logical Expressions **5**

10 Assertions **5**

11 Loops **5**

12 Invariant **5**

13 Call Stack **5**

14 Fixed-Length Array **5**

15 Pointers **5**

16 Call-by-Reference **5**

17 Heap **5**

18 Characters and Strings **5**

19 Multidimensional Array **5**

20 Efficiency **5**

21 Searching **5**

22 Sorting **5**

23 Tower of Hanoi **5**

24 Permutation **5**

25 N-Queens **5**

26 Structure **5**

27 Standard C I/O **5**
